# About Northwich Glass

Northwich Glass Ltd has been a family owned and run business since it was established in 1959 by the founder, George Taylor.

Here at Northwich Glass Ltd we pride ourselves on listening to our customers, providing a personal, helpful experience as we understand better than anybody choosing the right windows, conservatory or bi-folding door system can be very daunting.

Our team of highly trained and experienced Sales Executives and Designers work closely with our customers to ensure you get what you want, when you want it!

We also recognise building work of any level can be stressful to the home environment, that is why here at Northwich Glass Ltd we ensure installation of your doors, windows or conservatory is done so with the minimum amount of disruption.

A photograph of a two-story stone house with a grey slate roof. A large, mature tree with green foliage stands in front of the house, partially obscuring the upper part of the building. The house has several windows with white frames, including a dormer window on the roof. The sky is blue with some light clouds.

## Why choose us?

We believe that the customer is always right and we tailor our products to match your exact requirements.

Whatever your requirements, property type and budget, our dedicated team will work with you from step one to make your ideas become a reality. This begins with an on site survey.

## How do I arrange a survey?

Click on the **"Download Brochure"** button to view some of the products and brands we supply and fit. Click on the **"Get Quote"** button at the side of the screen to request a survey or callback so we can discuss your requirements in further detail.

Once we have all the information we need on your project we will send you a **no-obligation electronic quote** which you will receive as an email from WinQuote. You can easily accept this quote, reject it, or direct message us to ask us any questions about it.

# Things to consider when buying Windows, Doors and Conservatories

## Do you need planning permission?

When installing a conservatory, planning permission isn't usually required. You're only likely to need planning permission if your conservatory will cover more than **half the area surrounding your house**, or if the conservatory roof is higher than the highest point of your existing property.

You must also obtain planning permission before you build on raised platforms such as **verandas and balconies**.

## Energy Ratings

The Window Energy Rating system tells you how energy efficient a window is. Windows are given an energy rating on a scale of G to A+, with **A+ windows being the most energy-efficient**.

If saving money on energy bills is important to you and you want a warmer home then it goes without saying that you should try and buy the most energy efficient windows you can afford.

## Reputation

As always, buy from a reputable business. There are lots of great companies out there but others that are less reputable.

Don't be afraid to **check out our reviews** online and in our app account to see what our past customers have to say about us.

## Use BM Trada, Certass and Fensa registered glaziers.

It's a good idea to choose a double glazing installer that is registered with a competent person scheme, such as **BM Trada, Certass** or **Fensa**. Membership means that companies can self-certify their work complies with building regulations. It also means the work is covered by an insurance-backed guarantee if it's not compliant and the company goes bust.

In England and Wales, new and replacement windows must meet a certain level of energy efficiency. You need to get a certificate to show your windows comply with these regulations. An installer registered with one of the self-certification schemes will issue this certificate for you - otherwise your council will need to come and check the work.

## Rock Doors

- ✓ **Stunning appearance**
- ✓ **Strong, safe & secure**

If you choose a **Rock door** you can be sure of the following. You are buying a door with reputation that is unsurpassed in its class, which is designed with your safety and security in mind.

## Xtreme Doors

- ✓ **7 different colours**
- ✓ **Several glass designs**

**Xtreme Doors** come in a variety of classic and contemporary styles to suit any entrance.

As with any door that Northwich Glass fits, Xtreme Doors come with modern, strong multipoint locking systems tested to the very latest security standards published by BSi and have a proven pedigree of reliable secure performance.

## Spitfire Doors

Looking for that wow factor to make your property stand out from the crowd?

Northwich Glass are proud to be supply partners for this highly prestigious door, from retina entry through to finger print recognition, we guarantee there is nothing quite like the spitfire door!

✓ **Spitfire Doors are the perfect fusion of security, substance and style.**

## French Doors

- ✓ Both doors lock independently
- ✓ Multi-point locking
- ✓ Latest technology

Our stunning **French Doors** are a great way to open up your home and bring your living space and garden together.

French Doors are a great alternative to a window to allow more light into your home and with internal glazing, high security hinges and multi point locks they provide a formidable barrier against intruders.

## Patio Doors

## Sliding Doors

- ✓ Made-to-measure and fitted
- ✓ Advanced glass technology

**Patio Sliding Doors** are perfect for those wishing to make the most of their views or those wanting maximum glass area to allow light to brighten and uplift their living space.

Sliding Patio Doors are also the ideal solution for those with space limitations as they do not take up any room like conventional doors.

## Bi-folding Doors

- ✓ Slim, strong, smooth
- ✓ Multi-point locking
- ✓ Up to 1200mm wide and 2500mm high

Our amazing **Bi-Folding doors** complement any property, available in any colour combination at no extra cost.

Enhance the rear of your property whilst opening up your living space.

## Dutemann Bi-folding Doors

- ✓ Aluminium frames
- ✓ Strong and safe

Manufactured in the market leading and German-engineered Schuco **aluminium bi-fold** system, we're able to offer you and your customers access to one rigorously manufactured folding doors.

We check everything and then check again so when it arrives on site, you and your customers know it's going to be right.

# Window Systems

Our sliding **SASH WINDOWS** are double glazed and come fitted with draught proof weatherseals ensuring that the elements and noise are kept out.

As well as the traditional slide function, the windows also come with a tilt in facility-excellent for cleaning.

**BAY WINDOWS** provide the stunning façade to many period properties, to either replicate the look or produce a new, contemporary design.

Also, an upgrade to A rated windows can offer excellent thermal efficiency on what are very often the largest heat losers in the house.

At Northwich Glass we supply **CASEMENT UPVC** windows (Kommerling 70mm profile) for all domestic uPVC windows.

For security, we fit a 6 point locking system on all casements, ensuring that your new investment provides both kerb appeal and safety.

## PVCu Conservatories

The **PVCu roof system** is built using the latest technology to ensure high-quality performance and style.

With a wide range of style options and configurations, our conservatories will allow you to create unique and flexible living spaces to match any style of home.

✓ There are so many choices available from a contemporary look to a classic traditional style, and can be tailored to meet all requirements.

Edwardian

Lean-to

Victorian

## Glass Extensions

- ✓ External view of the house
- ✓ Excellent weather protection and heat conservation
- ✓ Modern look

Our modern contemporary **glass conservatory extensions** have been developed over the last 30 years using commercial glass technology and specialist structural sealant applications to produce rooms made entirely of glass that can satisfy strict thermal and structural regulations with a unique and practical design.

## Solid Roof Conservatories

- ✓ Completely bespoke design
- ✓ Amazing transformation
- ✓ Excellent heat conservation

Take a look from the outside and a **solid roof conservatory** looks more like an extension thanks to the tiled roof. It also comes with a wide range of design options from the traditional to the contemporary.

While a conservatory is a glazed extension to the home, a solid roof can be designed to incorporate the features of the main house.

# Orangeries

A Northwich Glass **Orangery** combines the best of the Conservatory allowing light to flood into adjoining rooms, with the additional brickwork appearance of a traditional extension.

- ✓ Choose from over **100 colours**
- ✓ Like a traditional extension

For those who like maximum light transmission, a conventional Conservatory roof can be used. Additional brickwork pillars set this apart from a standard conservatory and give the space a more contemporary feel.

## Polyframe Protection Promise

In partnership with Yale, Polyframe now offer the best homeowner security guarantee in the industry!

We are so confident in the security of our uPVC windows and doors, the polyframe protection promise delivers up to £6,500 in the event of a break-in through correctly configured Polyframe windows and doors.

By choosing Polyframe windows and doors with a full suite of eligible Yale-approved hardware, you can rest assured that your homes and possessions are protected by a leading name in home security.

- ✓ **£2,000 compensation**
- ✓ **Up to £2,000 towards home insurance excess**
- ✓ **Up to £2,000 towards repairs or replacements**
- ✓ **Up to £500 refund on call out fees**
